Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Port Jefferson Union Free School District (the District), as of and for the year ended June 30, 2024, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the additional information on pages 52 through 56 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or

historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying other supplementary information as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 8, 2024 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering District's internal control over financial reporting and compliance.

PORT JEFFERSON UNION FREE SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS

The Port Jefferson Union Free School District's (District) discussion and analysis of the financial performance provides an overall review of the District's financial activities for the year ended June 30, 2024 in comparison with the year ended June 30, 2023, with emphasis on the current year. This should be read in conjunction with the financial statements, notes to financial statements, and required supplementary information, which immediately follow this section.

1. FINANCIAL HIGHLIGHTS

Key financial highlights for fiscal year 2024 are as follows:

- The District's total net position (deficit), as reflected in the district-wide financial statements, increased by \$3,803,122 or 5.65% to \$71,092,296. This was due to an excess of expenses over revenues using the accrual basis of accounting.
- The District's expenses for the year, as reflected in the district-wide financial statements, totaled \$53,251,661. Of this amount, \$1,520,541 was offset by program charges for services, and operating grants and contributions. General revenues of \$47,927,998 amount to 96.93% of total revenues, and were not adequate to cover the balance of program expenses.
- The District's general fund fund balance, as reflected in the fund financial statements was \$26,697,748 at June 30, 2024. This balance represents a \$2,865,754 increase (12.02%) over the prior year due to an excess of revenues and other financing sources over expenditures and other financing uses using the current financial resources measurement focus and the modified accrual basis of accounting, as follows:
 - Nonspendable fund balance increased by \$219,626, which represents the increase in prepaids and long-term receivables.
 - Restricted fund balances increased by \$84,213, mainly due to the funding of and interest allocated to the reserves, offset by the use of reserves.
 - Assigned fund balance decreased by \$585,213, due to a decrease in outstanding encumbrances.
 - Unassigned fund balance increased by \$3,147,128 to \$4,785,659.
- The District's 2024 property tax levy of \$39,307,619 was a 1.98% increase over the 2023 tax levy, which was less than the property tax cap of 1.99%.

2. OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts – management's discussion and analysis (MD&A), the financial statements, required supplementary information, and other information. The financial statements consist of district-wide financial statements, fund financial statements, and notes to financial statements. A graphic display of the relationship of these statements follows:

PORT JEFFERSON UNION FREE SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
(Continued)

A. District-Wide Financial Statements

The district-wide financial statements present the governmental activities of the District and are organized to provide an understanding of the fiscal performance of the District, as a whole, in a manner similar to a private sector business. There are two district-wide financial statements - the Statement of Net Position and the Statement of Activities. These statements provide both an aggregate and long-term view of the District's finances.

These statements utilize the economic resources measurement focus and the accrual basis of accounting. This basis of accounting recognizes the financial effects of events when they occur, without regard to the timing of cash flows related to the events.

The Statement of Net Position:

The Statement of Net Position presents information on all of the District's assets and deferred outflows of resources, and liabilities and deferred inflows of resources, with the difference reported as net position. Increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. To assess the overall health of the District, one needs to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of the District's school buildings and other capital assets.

The Statement of Activities:

The Statement of Activities presents information showing the change in net position during the fiscal year. All changes in net position are recorded at the time the underlying financial event occurs. Revenues are recognized in the period when they are earned and expenses are recognized in the period when the liability is incurred. Therefore, revenues and expenses are reported in the statement for some items that will result in cash flows in future fiscal periods.

B. Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District also uses fund accounting to ensure compliance with finance-related legal requirements. The funds of the District are reported in the governmental funds and the fiduciary fund.

Governmental Funds

These statements utilize the current financial resources measurement focus and the modified accrual basis of accounting. This basis of accounting recognizes revenues in the period when they become measurable and available. It recognizes expenditures in the period when the District incurs the liability, except for certain expenditures such as debt service on general long-term indebtedness, compensated absences, workers' compensation, pension costs, and other postemployment benefits (OPEB), which are recognized as expenditures to the extent the related liabilities mature each period.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the district-wide financial statements. However, the governmental fund financial statements focus on shorter-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year for spending in future years. Consequently, the governmental fund statements provide a detailed short-term view of the District's operations and the services it provides.

PORT JEFFERSON UNION FREE SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
(Continued)

Because the focus of governmental funds is narrower than that of district-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the district-wide financial statements. By doing so, the reader may better understand the long-term impact of the District's near-term financing decisions. Both the governmental funds Balance Sheet and the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains six individual governmental funds: general fund, special aid fund, school food service fund, capital projects fund, extraclassroom activities fund, and scholarships fund, each of which is considered to be a major fund and is presented separately in the fund financial statements.

Fiduciary fund

The District reports its fiduciary activities in the fiduciary fund – custodial fund. This fund reports real property taxes and payments in lieu of taxes (PILOT) collected on behalf of other governments and disbursed to those governments, and utilizes the economic resources measurement focus and the accrual basis of accounting. All of the District's fiduciary activities are reported in separate statements. The fiduciary activities have been excluded from the district-wide financial statements because the District cannot use these assets to finance its operations.

3. FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

A. Net Position

The District's total net position (deficit) increased by \$3,803,122 between fiscal year 2024 and 2023. The deficit increase is due to expenses in excess of revenues using the economic resources measurement focus and the accrual basis of accounting. A summary of the District's Statements of Net Position follows:

| | 2024 | 2023 | Increase (Decrease) | Percentage Change |
|---------------------------------------|------------------------|------------------------|------------------------|----------------------|

Current and other assets increased, primarily due to the increase in cash.

PORT JEFFERSON UNION FREE SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
(Continued)

The decrease in capital assets, net is due to depreciation expense in excess of capital asset additions. The accompanying Notes to Financial Statements, Note 10 "Capital Assets" provides additional information.

Deferred outflows of resources represents contributions to the pension plans and OPEB subsequent to the measurement dates and actuarial adjustments of the pension and OPEB plans that will be amortized in future years.

The increase in current and other liabilities is mainly the result of the increase in accounts payable.

The increase in long-term liabilities is due to an increase in compensated absences payable, in excess of principal payments on outstanding debt, and a decrease in the workers' compensation liabilities.

Total OPEB liability increased, based on the actuarial valuation for the plan. The accompanying Notes to Financial Statements, Note 14 "Postemployment Healthcare Benefits", provides additional information.

Net pension liabilities – proportionate share represents the District's share of the New York State Teachers' Retirement System's (TRS) and the New York State and Local Employees' Retirement System's (ERS) collective net pension liabilities, at the measurement date of the respective year. The decrease in net pension liabilities is primarily due to the net change in the market value of both the TRS' and ERS' pension plan assets being in excess of the net change in each plan's total pension liabilities at their current year measurement dates. The accompanying Notes to Financial Statements, Note 12 "Pension Plans – New York State" provides additional information.

Deferred inflows of resources represents actuarial adjustments of the pension and OPEB plans that will be amortized in future years, as well as the amount of long-term lease receivable that will be amortized as lease revenues over the term of the lease.

The net investment in capital assets, relates to the investment in capital assets at cost, net of accumulated depreciation and related outstanding debt. The accompanying Other Information, Schedule of Net Investment in Capital Assets provides additional information.

The restricted amount relates to the District's reserves, as well as amounts restricted for scholarships, which decreased from the prior year, mainly due to use of reserves, in excess of transfers into and interest earned on the reserves.

The unrestricted (deficit) amount relates to the balance of the District's net position. This balance does not include the District's reserves and amounts restricted for scholarships, which are classified as restricted. Additionally, certain unfunded liabilities will have the effect of reducing the District's unrestricted net position. One such unfunded liability is the total OPEB liability. In accordance with state guidelines, the District is only permitted to fund OPEB on a "pay as you go" basis, and is not permitted to accumulate funds for the OPEB liability.

B. Changes in Net Position

The results of operations, as a whole, are reported in the Statement of Activities in a programmatic format. In the accompanying financial statements school tax relief (STAR) revenue is included in the other tax items line. However, in this MD&A, STAR revenue has been combined with property taxes. A summary of this statement for the years ended June 30, 2024 and 2023 is as follows:

The District's net position decreased by \$3,803,122 and \$508,754 for the years ended June 30, 2024 and June 30, 2023, respectively.

The District's revenues increased when compared to the prior year, primarily due to the following major changes:

- Other revenue increased mainly due to earning additional interest on District funds, as well as the growth in miscellaneous revenue.
- Real property taxes and STAR were increased to fund additional appropriations in the voter-approved 2023-2024 budget.

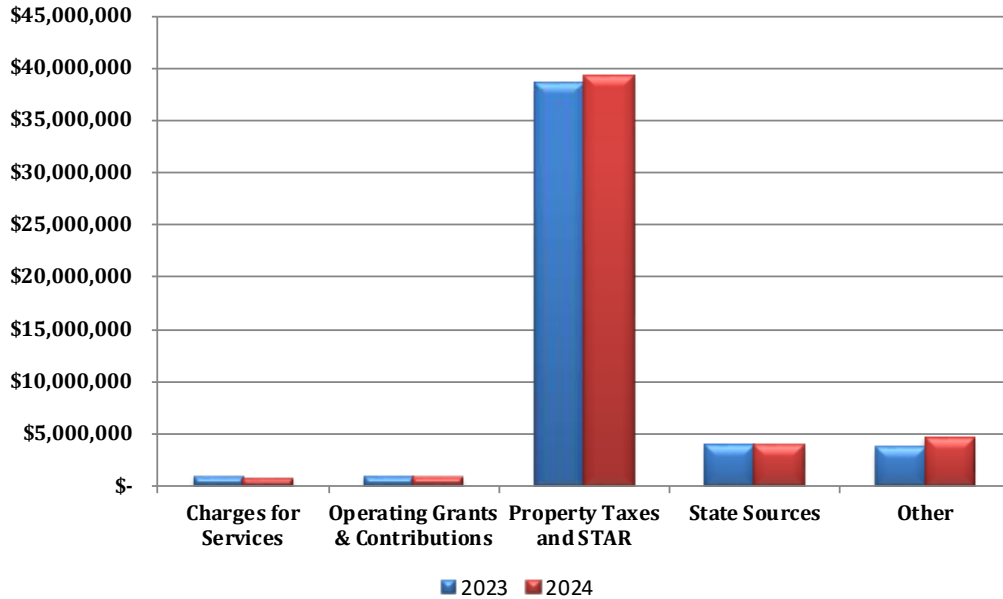

The District's expenses increased when compared to the prior year, primarily due to the following major changes:

- General support and instruction increased based on the impact of allocations of the net change in actuarially determined pension expenses for TRS and ERS, and OPEB costs.
- Pupil transportation increased due to the rise in bus contracts and fuel costs.

As indicated on the graphs that follow, real property taxes and STAR is the largest component of revenues recognized (i.e., 79.5% and 80.3% of the total for the years ended June 30, 2024 and 2023, respectively). Instruction expenses is the largest category of expenses incurred (i.e., 76.5% of the total for years ended June 30, 2024 and 2023, respectively).

4. FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

At June 30, 2024, the District's governmental funds reported a combined fund balance of \$31,445,949, which is an increase of \$2,834,462 over the prior year. This increase is due to an excess of revenues and other financing sources over expenditures and other financing uses, using the current financial resources measurement focus and the modified accrual basis of accounting. A summary of the change in the components of fund balance by fund is as follows:

A. General Fund

The general fund fund balance is a net increase of \$2,865,754 or 12.02% compared to a net increase of \$598,853 or 2.58% in 2023. This resulted from revenues and other financing sources in excess of expenditures and other financing uses.

The following is a summary of the major changes that resulted in revenues increasing over the prior year:

| | 2024 | 2023 | Increase (Decrease) | Percentage Change |
|----------------------------|----------------------|----------------------|------------------------|----------------------|

| | <u>\$ 49,271,369</u> | <u>\$ 46,712,231</u> | <u>\$ 2,559,138</u> | 5.48 % |

- Other financing sources increased due to the District making a one-time transfer of unspent funds from the capital projects fund, and returning these monies to the capital reserve.
- Property taxes and STAR increased due to a rise in the tax levy in accordance with the 2023-2024 voter-approved budget.
- The increase in other local sources is predominantly due to the District earning additional interest in the current year, and more in miscellaneous revenue.

The following is a summary of the major changes that resulted in expenditures and other financing uses increasing over the prior year:

| | 2024 | 2023 | Increase (Decrease) | Percentage Change |
|----------------------|----------------------|----------------------|------------------------|----------------------|
| General Support | \$ 6,622,190 | \$ 6,022,307 | \$ 599,883 | 9.96 % |

| | <u>\$ 46,405,615</u> | <u>\$ 46,113,378</u> | <u>\$ 292,237</u> | 0.63 % |

- Other financing uses decreased as the District transferred less to the capital projects fund to fund capital projects than it did in the current year.
- Instruction increased due to routine salary and step raises, as well as additional BOCES services.
- General support increased primarily as a result of increase contractual expenditures for plant maintenance.

Additional detail regarding the capital reserve can be found in Note 18 "Restricted for Capital Reserve".

B. School Food Service Fund

The school food service fund - fund balance net increase can be attributed to revenues and other financing sources exceeding expenditures. Revenues and other financing sources increased by \$79,841 or 19.61% when compared to the prior year. This is mainly due increases in school lunch sales. Expenditures increased by \$102,374 or 27.61% when compared to the prior year, due to the District incurring more in school food service management company fees in the current year.

C. Capital Projects Fund

The capital projects fund – fund balance net decrease is the result of expenditures related to ongoing capital improvement projects.

The following is a summary of the District's capital projects fund restricted fund balance activity:

| | Balance June 30, 2023 | Use of Reserves | Funding | Balance June 30, 2024 |
|----------|--------------------------|---------------------|-----------|--------------------------|
| May 2017 | <u>\$ 2,746,724</u> | <u>\$ (709,208)</u> | <u>\$</u> | <u>\$ 2,037,516</u> |

D. Extraclassroom Activities Fund

The extraclassroom activities fund – fund balance net increase is attributable to cash receipts from fundraising and collections for student clubs activities exceeding disbursements related to those activities.

E. Scholarships Fund

The scholarships fund – fund balance net decrease is the result of scholarship awards exceeding scholarship donations.

5. GENERAL FUND BUDGETARY HIGHLIGHTS

A. 2023-2024 Budget

The District's general fund adopted budget for the year ended June 30, 2024 was \$47,066,909. This amount was increased by encumbrances carried forward from the prior year in the amount of \$1,466,462 for a total final budget of \$48,533,371.

The final budget was funded through a combination of estimated revenues. The majority of this funding source was \$39,357,460 in estimated property taxes and STAR.

B. Change in General Fund's Unassigned Fund Balance (Budget to Actual)

The general fund's unassigned fund balance is the component of total fund balance that is the residual of current and prior years' excess revenues and other financing sources over expenditures and other financing uses, net of transfers to reserves, appropriations to fund the subsequent year's budget, encumbrances, and amounts classified as nonspendable. The change in this balance, demonstrated through a comparison of the actual revenues and expenditures and other financing uses for the year compared to budget, follows:

| | |
|---|---------------------|
| Opening Unassigned Fund Balance | \$ 1,638,531 |
| Revenues and Other Financing Sources Over Budget | 2,884,768 |
| Expenditures, Other Financing Uses, and Encumbrances Under Budget | 1,206,507 |
| Net Change in Nonspendable Fund Balance | (219,626) |
| Transfers to Reserves, Including Interest Allocated | (624,521) |
| Appropriated for the 2024-2025 Budget | <u>(100,000)</u> |
| Closing Unassigned Fund Balance | <u>\$ 4,785,659</u> |

Opening, Unassigned Fund Balance

The \$1,638,531 shown in the table is the portion of the District's June 30, 2023 fund balance that was retained as unassigned.

Revenues and Other Financing Sources Over Budget

The 2023-2024 final budget for revenues and other financing sources was \$46,386,601. Actual revenues and other financing sources recognized for the year were \$49,271,369. The excess of actual revenues over budgeted revenues was \$2,884,768, which contributes directly to the change to the general fund unassigned fund balance from June 30, 2023 to June 30, 2024. The accompanying Required Supplementary Information, Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund, provides additional information.

Expenditures, Other Financing Uses, and Encumbrances Under Budget

The 2023-2024 final budget for expenditures and other financing uses, including prior year open encumbrances, as of June 30, 2023, was \$48,533,371. Actual expenditures and other financing uses as of June 30, 2024 were \$46,405,615 and outstanding encumbrances were \$921,249. The final budget variance was \$1,206,507, which contributes directly to the change to the general fund unassigned fund balance from June 30, 2023 to June 30, 2024. The accompanying Required Supplementary Information, Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund, provides additional information.

Net Change in Nonspendable Fund Balance

Nonspendable fund balance consists of various prepaid insurance premiums and the long-term receivable. The resulting balance sheet asset cannot be spent because it is not in spendable form, meaning it will not be converted to cash. Accordingly, an equal amount of fund balance is classified as nonspendable. The increase in nonspendable fund balance decreases unassigned fund balance.

Allocation to Reserves

Monies transferred into authorized reserves do not affect the total fund balance unless, and until these monies are actually expended. The transfers do, however, reduce the District's discretion regarding the use of these transferred monies, and thus, reduce the unassigned fund balance by the amount of the transfers. The summary of restricted fund balance activity in section 4.A of this MD&A details the allocation of interest earnings and funding transfers to the reserves.

Appropriated Fund Balance

The District has chosen to use \$100,000 of the available June 30, 2024 unassigned fund balance to partially fund the 2024-2025 approved operating budget. As such, the June 30, 2024 unassigned fund balance must be reduced by this amount.

Closing, Unassigned Fund Balance

Based upon the summary changes shown in the above table, the unassigned fund balance at June 30, 2024 was \$4,785,659. This amount equals 9.97% of the 2024-2025 budget and is in excess of the 4% statutory limit.

6. CAPITAL ASSETS, DEBT ADMINISTRATION, AND OTHER LONG-TERM LIABILITIES

A. Capital Assets

At June 30, 2024, the District had invested in a broad range of capital assets, as indicated in the table below. The net decrease in capital assets is due to depreciation expense of \$1,613,200 exceeding capital additions of \$389,611 for the year ended June 30, 2024. A summary of the District's capital assets, net of accumulated depreciation at June 30, 2024 and 2023 is as follows:

B. Debt Administration

At June 30, 2024, the District had total debt of \$1,382,352. The decrease in outstanding debt represents principal payments made throughout the year. A summary of the outstanding debt at June 30, 2024 and 2023 is as follows:

| | Issue Date | Interest Rate | 2024 | 2023 | Increase (Decrease) |
|--|---------------|------------------|---------------------|---------------------|------------------------|

C. Other Long-Term Liabilities

Included in the District's long-term liabilities are the estimated amounts due for compensated absences, which are based on employment contracts, and workers' compensation liabilities, total OPEB liability, and net pension liabilities - proportionate share, which are based on actuarial valuations. A summary of the outstanding other long-term liabilities at June 30, 2024 and 2023 is as follows:

| | 2024 | 2023 | Increase/ (Decrease) |
|---|-----------------------|-----------------------|-------------------------|
| Compensated absences payable | \$ 4,496,041 | \$ 4,241,092 | \$ 254,949 |

7. ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

A. Subsequent Year's Budget

The general fund budget, the only fund with a legally adopted budget, as approved by the voters on May 21, 2024, for the year ending June 30, 2025, is \$48,018,335, which is an increase of \$951,426 or 2.02% over the prior year's budget.

PORT JEFFERSON UNION FREE SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
(Continued)

The District budgeted revenues other than property taxes and STAR at a \$693,037 increase over the prior year's estimate. The assigned, appropriated fund balance applied to the budget in the amount of \$100,000, is a decrease of \$40,000 from the previous year. Additionally, the District elected to appropriate \$350,000 of reserves towards the next year's budget, which is a decrease of \$190,308 from the previous year. A property tax increase of \$488,697 (1.24%), levy-to-levy, was needed to meet the funding shortfall and cover the increase in appropriations.

B. Future Budgets

Factors to consider that could influence future budgets:

- Uncertainty with state aid complicates long-range planning.
- Rise in employee cost centers of employee salaries and health benefits, as well as contributions to pension programs.
- Changing circumstances of unforeseen events and risks including natural disasters and global pandemics.
- Impact of external factors such as market trends, economic conditions, and regulatory changes.
- The combination of high inflation and high-interest rates can impact all lines of the budget.
- Social and demographic changes with population, age distribution, and personal income can have significant and lasting effects.
- Legal and intergovernmental factors constraining tax increases, forbidding particular revenue sources, and mandating some services.

C. Tax Cap

New York State law limits the increase in the property tax levy of school districts to the lesser of 2% or the rate of inflation. There are additional statutory adjustments in the law. School districts may override the tax levy limit by presenting to the voters a budget that requires a tax levy that exceeds the statutory limit. However, that budget must be approved by 60% of the votes cast. Based on the law, the District's tax levy cap for the 2024-2025 year is 1.24%. The District's 2024-2025 property tax increase of 1.24% was equal to the tax cap and did not require an override vote.

Total Governmental Fund Balances \$ 31,445,949

Amounts reported for governmental activities in the Statement of Net Position are different because:

The costs of building and acquiring capital assets financed from the governmental funds are reported as expenditures in the year they are incurred, and the assets do not appear on the Balance Sheet. However, the Statement of Net Position includes those capital assets among the assets of the District as a whole, and their original costs are expensed annually over their useful lives.

PORT JEFFERSON UNION FREE SCHOOL DISTRICT
Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and
Changes in Fund Balances to the Statement of Activities
For the Year Ended June 30, 2024

Net Change in Fund Balances \$ 2,834,462

Amounts reported for governmental activities in the Statement of Activities are different because:

Long-Term Revenue and Expense Differences

Certain expenditures in the governmental funds requiring the use of current financial resources (amounts paid) may exceed the amounts incurred during the year, resulting in a reduction of the long-term liability and an increase in the net position.

| | | |
|--|--------------|-----------|
| Increase in compensated absences payable | \$ (254,949) | |
| Decrease in workers' compensation claims liability | 52,036 | |
| | | (202,913) |

Capital Related Differences

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are capitalized and shown in the Statement of Net Position and allocated over their useful lives as annual depreciation expense in the Statement of Activities. This is the amount by which depreciation expense exceeded capital outlays in the period.

| | | |
|-------------------------------------|-------------|-------------|
| Capital outlays and other additions | 389,611 | |
| Depreciation expense | (1,613,200) | |
| | | (1,223,589) |

Long-Term Debt Transactions Differences

Repayment of long-term debt principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Position and does not affect the Statement of Activities.

| | | |
|-------------------------------------|---------|--|
| Energy performance contract payable | 174,393 | |
|-------------------------------------|---------|--|

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. This is the amount by which accrued interest decreased from June 30, 2023 to June 30, 2024.

|--|-----|---------|
| | 189 | 174,582 |
|--|-----|---------|

Pension and Other Postemployment Benefits Differences

The change in the proportionate share of the collective pension expense of the state retirement plans and the change in other postemployment benefits expense reported in the Statement of Activities did not affect current financial resources and, therefore, are not reported in the governmental funds.

PORT JEFFERSON UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Port Jefferson Union Free School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) for governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles. Significant accounting principles and policies used by the District are as follows:

A. Reporting Entity

The District is governed by the laws of New York State. The District is an independent entity governed by an elected Board of Education (Board) consisting of seven members. The President of the Board serves as the chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for, and controls all activities related to public school education within the District. Board members have authority to make decisions, power to appoint management, and primary accountability for all fiscal matters.

The financial reporting entity is based on criteria set forth by GASB. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the District. The District is not a component unit of another reporting entity. The decision to include a potential component unit in the District's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, there are no other entities that would be included in the District's reporting entity.

B. Joint Venture

The District is a component district in the Board of Cooperative Educational Services of Eastern Suffolk (BOCES). A BOCES is a voluntary, cooperative association of school districts in a geographic area that share planning, services, and programs which provide educational and support activities. BOCES are organized under §1950 of the Education Law. A BOCES Board is considered a corporate body. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of §1950 of the Education Law. All BOCES property is held by the BOCES Board as a corporation under §1950(6). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n(a) of the General Municipal Law (GML). A BOCES budget is comprised of separate budgets for administrative, program, and capital costs. Each component district's share of administrative and capital cost is determined by resident public school district enrollment as defined in Education Law, §1950(4)(b)(7). There is no authority or process by which a school district can terminate its status as a BOCES component. In addition, component school districts pay tuition or a service fee for programs in which its students participate.

C. Basis of Presentation

District-Wide Financial Statements

The Statement of Net Position and the Statement of Activities present information about the overall governmental financial activities of the District, except for fiduciary activities. Eliminations have been made to minimize the double counting of interfund transactions. Governmental activities generally are financed through taxes, state aid, intergovernmental revenues, and other exchange and nonexchange transactions. Operating grants and contributions include operating-specific and discretionary (either operating or capital) grants and contributions, while capital grants reflect capital-specific grants, if applicable.

The Statement of Net Position presents the financial position of the District at year end. The Statement of Activities presents a comparison between program expenses and revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Employee benefits are allocated to functional areas in proportion to the payroll expended for those areas. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including real property taxes and state aid, are presented as general revenues.

Fund Financial Statements

The fund financial statements provide information about the District's funds, including the fiduciary fund. Separate statements for each fund type, governmental and fiduciary, are presented. The District's financial statements present the following fund types:

Governmental Funds - are those through which most governmental functions are financed. The acquisition, use, and balances of expendable financial resources, and the related liabilities are accounted for through governmental funds. The emphasis of governmental fund financial statements is on major funds as defined by GASB, each displayed in a separate column. The following are the District's major governmental funds:

General Fund - is the general operating fund and is used to account for all financial transactions except those required to be accounted for in another fund.

Special Aid Fund - is used to account for the proceeds of specific revenue sources such as federal and state grants that are legally restricted to expenditures for specified purposes. These legal restrictions may be imposed by either governments that provide the funds or outside parties.

School Food Service Fund - is used to account for the activities of the food service program.

Capital Projects Fund - is used to account for the financial resources used for the acquisition, construction, renovation, or major repair of capital facilities and other capital assets.

Extraclassroom Activities Fund - is used to account for the funds operated by and for the students of the District. The Board exercises general oversight of these funds. The extraclassroom activities fund are independent of the District with respect to its financial transactions and the designation of student management. Separate audited financial statements of the extraclassroom activities fund can be found at the District's Business Office.

PORT JEFFERSON UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

Scholarships Fund – is used to account for funds collected that benefit annual third-party awards and scholarships for students.

Fiduciary Funds – are used to account for activities in which the District acts as trustee or custodian for resources that belong to others. These activities are not included in the district-wide financial statements, because their resources do not belong to the District, and are not available to be used to finance District operations. The following is the District’s fiduciary fund:

Custodial Fund – is used to account for real property taxes and payments in lieu of taxes (PILOT) collected on behalf of other governments and disbursed to those governments.

D. Measurement Focus and Basis of Accounting

Measurement focus describes what type of information is reported, and is either the economic resources measurement focus or the current financial resources measurement focus. The economic resources measurement focus reports all assets, liabilities, and deferred resources related to a given activity, as well as transactions of the period that affect net position. For example, all assets, whether financial (e.g., cash and receivables) or capital (e.g., property and equipment) and liabilities (including long-term debt and obligations) are reported. The current financial resources measurement focus reports more narrowly on assets, liabilities, and deferred resources that are relevant to near-term liquidity, along with net changes resulting from transactions of the period. Consequently, capital assets and the unmatured portion of long-term debt and certain other liabilities the District would not expect to liquidate currently with expendable available financial resources (e.g., compensated absences for employees still in active service) would not be reported.

Basis of accounting describes when changes are recognized, and is either the accrual basis of accounting or the modified accrual basis of accounting. The accrual basis of accounting recognizes changes in net position when the underlying event occurs, regardless of the timing of related cash flows. The modified accrual basis of accounting recognizes changes only at the point they affect near-term liquidity.

The district-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include real property taxes, state aid, grants, and donations. On an accrual basis, revenue from real property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from state aid is recognized in the fiscal year it is apportioned by the state. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 180 days after the end of the fiscal year, except for real property taxes, which are considered to be available if they are collected within 60 days after the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, compensated absences, workers’ compensation, pension costs, and OPEB, which are recognized as expenditures to the extent they have matured. Capital assets acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

E. Real Property Taxes and Other Tax Items

Calendar

Real property taxes are levied annually by the Board no later than November 1st and become a lien on December 1st. Taxes are collected by the Town of Brookhaven and remitted to the District from December to June.

Enforcement

Uncollected real property taxes are subsequently enforced by Suffolk County in June.

School Tax Relief (STAR) Aid

New York State implemented the STAR program with the enactment of Chapter 389 of the Laws of 1997 to reduce the school property tax burden on residential homeowners. A school district's annual property tax levy as adopted is reduced by the total amount of the STAR exemptions granted to homeowners. School districts are reimbursed for this loss in property tax revenues by the state with STAR aid, which is reported as other tax items revenue.

F. Payments in Lieu of Taxes (PILOT)

The District reports PILOT revenues in the general fund as part of other tax items revenues. These PILOT revenues are often the result of tax abatements granted by industrial development agencies of the Town and/or the County to help promote local economic development. Property owners make PILOT payments to the government agencies, which in turn remit the collected payments to the District.

PILOT payments collected on behalf of the Library are remitted to the Library. These pass-through amounts are not included in the District's other tax items revenue; however, the amounts are recorded within the custodial fund.

The District's PILOT revenues also include payments from the Long Island Power Authority (LIPA) remitted by Suffolk County. These LIPA PILOT payments are not the result of tax abatement agreements as defined by GASB Statement No. 77, *Tax Abatement Disclosures*, under which an entity receiving a reduction in tax revenues promises to take specific action that contributes to economic development or otherwise benefits the governments or residents of the governments.

G. Restricted Resources

When an expense is incurred for purposes for which both restricted and unrestricted net resources are available, the District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these Notes to Financial Statements.

H. Interfund Transactions

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within

PORT JEFFERSON UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

one year. Permanent transfers of funds include transfers to provide financing or other services. This includes the transfer of unrestricted general fund revenues to finance various programs that the District must account for in other funds in accordance with budgetary authorizations.

In the district-wide statements, eliminations have been made for all interfund receivables and payables among the funds.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables are netted on the accompanying governmental funds balance sheet when it is the District's practice to settle these amounts at a net balance based upon the right of legal offset.

A detailed disclosure by individual fund for interfund receivables, payables, transfers in, and transfers out activity is provided subsequently in these Notes to Financial Statements.

I. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources, and disclosure of contingencies at the date of the financial statements and the reported revenues and expenses/expenditures during the reporting period. Accordingly, actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including revenue availability, compensated absences, pension costs, OPEB, workers' compensation liabilities, potential contingent liabilities, and useful lives of capital assets.

J. Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand, bank deposits, and investments with an original maturity date of three months or less from date of acquisition.

Certain cash balances are restricted by various legal and contractual obligations, such as legal reserves and debt agreements.

K. Receivables

Receivables are shown net of an allowance for uncollectibles, if any. However, no allowance for uncollectibles has been provided since it is believed that such allowance would not be material.

L. Lease Receivable

The District leases a building to a third party. A lease receivable is measured and recorded at the present value of lease payments expected to be received by the District during the lease term using an implicit discount rate, net of any provision for estimated uncollectible amounts. As lease payments are received from the lessee, they are first allocated to the amortization of the discount on the lease receivable and recognized as interest revenue, and then to lease receivable.

A portion of fund balance, equal to the difference between the lease receivable and deferred inflows of resources for deferred lease, has been classified as nonspendable to indicate that a portion of revenue recognized from the lease does not constitute available spendable resources.

PORT JEFFERSON UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

M. Inventories and Prepaid Items

Inventories of food in the school food service fund are recorded at cost on a first-in, first-out basis, or in the case of surplus food donated by the U.S. Department of Agriculture, at the Government's assigned value, which approximates market. These inventories are accounted for on the consumption method.

Purchases of inventoriable items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount.

Prepaid items represent payments made by the District for which benefits extend beyond year end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as assets using the consumption method.

Under the consumption method, a current asset for the inventory and/or prepaid item is recorded at the time of receipt and/or purchase and an expense/expenditure is reported in the year the goods or services are consumed.

A portion of fund balance has been classified as nonspendable to indicate that inventory and prepaids do not constitute available spendable resources.

N. Capital Assets

The district-wide financial statements report capital assets. Capital assets are reported at actual cost, when the information is available, or at estimated historical cost based on professional third-party information. Donated assets are reported at acquisition value at the date of donation.

All capital assets, except land and construction in progress, are depreciated on a straight-line basis over their estimated useful lives as follows:

| | <u>Capitalization Threshold</u> | <u>Estimated Useful Life</u> |
|----------------------------|-------------------------------------|----------------------------------|
| Buildings and improvements | \$ 15,000 | 30 years |
| Outdoor improvements | 15,000 | 30 years |
| Furniture and equipment | 2,000 | 5-20 years |
| Licensed vehicles | 2,000 | 8 years |

O. Deferred Outflows of Resources

Deferred outflows of resources, in the Statement of Net Position, represents a consumption of net assets that applies to a future reporting period and so will not be recognized as an outflow of resources (expense) until that time. The District has two items that qualify for reporting in this category. The first item is related to pensions and consists of the District's proportionate share of changes in the collective net pension assets or liabilities not included in collective pension expense and the District's contributions to the pension systems (TRS and ERS) subsequent to the measurement date. The second item is related to OPEB and represents the change in the total OPEB liability not included in OPEB expense.

PORT JEFFERSON UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

P. Collections in Advance

Collections in advance arise when resources are received by the District before it has a legal claim to them, as when charges for services monies are received in advance from payers prior to the services being rendered by the District, such as summer program fees in the general fund, and prepaid lunch amounts in the school food service fund. These amounts are recorded as liabilities in the financial statements. The liabilities are removed and revenues are recognized in subsequent periods when the District has legal claim to the resources.

Q. Employee Benefits – Compensated Absences

Compensated absences consist of unpaid accumulated sick leave and vacation leave.

Sick leave eligibility and accumulation is specified in collective bargaining agreements and in individual employment contracts. Upon retirement, resignation, or death, employees may contractually receive a payment based on unused accumulated sick leave.

Vacation eligibility and accumulation is specified in collective bargaining agreements and in individual employment contracts. Some earned benefits may be forfeited if not taken within varying time periods. Employees are compensated for unused accumulated vacation leave through paid time off or cash payment upon retirement, termination, or death.

Certain collectively bargained agreements require these termination payments to be paid in the form of non-elective contributions into the employee's §403(b) plan.

The liability for compensated absences has been calculated using the vesting method and an accrual for that liability is included in the district-wide financial statements. The compensated absences liability is calculated based on the pay rates in effect at year end.

In the fund financial statements, a liability is reported only for payments due for unused compensated absences for those employees that have obligated themselves to separate from service with the District by June 30th.

R. Other Benefits

Eligible District employees participate in the TRS or the ERS.

District employees may choose to participate in the District's elective deferred compensation plans established under Internal Revenue Code §403(b) and §457.

The District provides individual or family health insurance coverage for active employees pursuant to collective bargaining agreements and individual employment contracts.

In addition to providing these benefits, the District provides individual, family, or surviving spouse postemployment health insurance coverage for eligible retired employees. Collective bargaining agreements and individual employment contracts determine if District employees are eligible for these benefits if they reach normal retirement age while working for the District. Healthcare benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post-retirement benefits is shared between the District and the retired employee. The District recognizes the cost of providing health insurance by recording its share of insurance premiums as an

PORT JEFFERSON UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

expenditure in the governmental funds as the liabilities for premiums mature (come due for payment). In the district-wide statements, the cost of postemployment health insurance coverage is recognized on the economic resources measurement focus and the accrual basis of accounting in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*.

S. Long-Term Debt

The District borrows money in order to acquire land or equipment, construct buildings, or make improvements. This enables the cost of these capital assets to be borne by the present and future taxpayers receiving the benefit of the capital assets. These long-term liabilities are full faith and credit debt of the local government. The repayment of principal and interest will be in the general fund.

T. Deferred Inflows of Resources

Deferred inflows of resources represents an acquisition of net assets that applies to a future reporting period and so will not be recognized as an inflow of resources (revenue/expense credit) until that time. The District has three items that qualify for reporting in this category. The first item is related to the long-term lease receivable for properties that the District leases to a third party. Revenues will be recognized systematically over the term of the lease agreement. The second item is related to pensions reported in the district-wide Statement of Net Position and consists of the District's proportionate share of changes in the collective net pension assets or liabilities not included in collective pension expense. The third item is related to OPEB reported in the district-wide Statement of Net Position and represents the change in the total OPEB liability not included in OPEB expense.

U. Equity Classifications

District-Wide Statements

In the district-wide statements there are three classes of net position:

Net investment in capital assets – Consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, construction, and improvements of those assets.

Restricted – Reports net position when constraints placed on the assets or deferred outflows of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted – Reports the balance of net position that does not meet the definition of the above two classifications.

Fund Statements

The fund statements report fund balance classifications according to the relative strength of spending constraints placed on the purpose for which resources can be used, as follows:

Nonspendable – Consists of amounts that are inherently nonspendable in the current period either because of their form or because they must be maintained intact. Nonspendable fund balance consists of inventory, which is recorded in the school food service fund, and prepaids and long-term receivables, which are recorded in the general fund.

PORT JEFFERSON UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

Restricted – Consists of amounts that are subject to externally enforceable legal purpose restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments; or through constitutional provisions or enabling legislation. The District has established the following restricted fund balances:

Workers' Compensation Reserve

Workers' Compensation Reserve (GML §6-j) is used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law, and for payment of expenses of administering this self-insurance program. The reserve may be established by Board action, and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. The reserve is accounted for in the general fund.

Unemployment Insurance Reserve

Unemployment Insurance Reserve (GML §6-m) is used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the District elects to convert to tax (contribution) basis, excess resources in the fund over the sum sufficient to pay pending claims may be transferred to any other reserve fund. The reserve is accounted for in the general fund.

Retirement Contribution Reserve

Retirement Contribution Reserve (GML §6-r) is used for the purpose of financing retirement contributions payable to the ERS and TRS. The Board, by resolution, may establish the reserve and authorize expenditures from the reserve. The reserve is funded by budgetary appropriations or taxes raised for the reserve, revenues that are not required by law to be paid into any other fund or account, transfers from reserves and other funds that may legally be appropriated. Contributions to the TRS sub-fund are limited to 2% of the total covered salaries paid during the preceding fiscal year, with the total amount funded not to exceed 10% of the total covered salaries during the preceding fiscal year. The TRS sub-fund is separately administered, but must comply with all the existing provisions of GML §6-r. These reserves are accounted for in the general fund.

Employee Benefit Accrued Liability Reserve

Employee Benefit Accrued Liability Reserve (GML §6-p) is used to reserve funds for the payment of accrued employee benefits primarily based on unused and unpaid sick leave, personal leave, holiday leave, or vacation leave due an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. The reserve is accounted for in the general fund.

Capital Reserve

Capital Reserve (Education Law §3651) is used to pay the cost of any object or purpose for which bonds may be issued. The creation of a capital reserve fund requires authorization by a majority of the voters establishing the purpose of the reserve; the ultimate amount, its probable term, and the source of the funds. Expenditure may be made from the reserve only for a specific purpose further authorized by the voters. The form for the required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in §3651 of the Education Law. These reserves are accounted for in the general fund and capital projects fund.

Restricted for Scholarships

Amounts restricted for scholarships are used to account for monies donated for scholarship purposes, including earnings and net of awards. These restricted funds are accounted for in the scholarships fund.

Assigned – Consists of amounts that are subject to a purpose constraint that represents an intended use established by the District’s Board. The purpose of the assignment must be narrower than the purpose of the general fund, and in funds other than the general fund, assigned fund balance represents the residual, positive amount of fund balance. Assigned fund balance includes an amount appropriated to partially fund the subsequent year’s budget, as well as encumbrances not classified as restricted at the end of the fiscal year.

Unassigned – Represents the residual classification for the District’s general fund and could report a surplus or deficit. In funds other than the general fund, the unassigned classification is used to report a deficit fund balance resulting from overspending of available resources. NYS Real Property Tax Law §1318, restricts the unassigned fund balance of the general fund to an amount not greater than 4% of the subsequent year’s budget.

Fund Balance Classification

Any portion of fund balance may be applied or transferred for a specific purpose by law, voter approval if required by law or by formal action of the Board if voter approval is not required. Amendments or modification to the applied or transferred fund balance must also be approved by formal action of the Board.

The Board shall delegate the authority to assign fund balance, for encumbrance purposes, to the person(s) to whom it has delegated the authority to sign purchase orders.

In circumstances where an expenditure is incurred for a purpose for which amounts are available in multiple fund balance classifications (that is restricted, assigned, or unassigned), the expenditure is to be spent first from the restricted fund balance to the extent appropriated by the budget or any Board approved budget revision, then from the assigned fund balance to the extent appropriated by the Board, and then from the unassigned fund balance.

2. FUTURE ACCOUNTING STANDARDS

The GASB Statements are issued to set GAAP for state and local governments. The following is not an all-inclusive list of GASB statements issued, but statements that the District feels may have a future impact on these financial statements. The District will evaluate the impact of these pronouncements and implement them, as applicable, if material.

| Effective for the Year Ending | Statement |
|--------------------------------------|--|
| June 30, 2025 | GASB No. 101 – <i>Compensated Absences</i> |
| June 30, 2025 | GASB No. 102 – <i>Certain Risk Disclosures</i> |
| June 30, 2026 | GASB No. 103 – <i>Financial Reporting Model Improvements</i> |

GASB Statement No. 101 was issued to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and amending previously required disclosures.

GASB Statement No. 102 was issued to provide users of government financial statements with essential information about risks related to a government’s vulnerabilities due to certain concentrations or constraints.

GASB Statement No. 103 was issued to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government’s accountability. This Statement also addresses certain application issues.

3. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE DISTRICT-WIDE STATEMENTS AND THE GOVERNMENTAL FUND STATEMENTS

Due to the differences in the measurement focus and basis of accounting used in the district-wide statements and the governmental fund statements, certain financial transactions are treated differently. The financial statements contain a full reconciliation of these items.

A. Total Fund Balances of Governmental Funds vs. Net Position of Governmental Activities

Total fund balances of the District’s governmental funds differ from net position of governmental activities reported in the Statement of Net Position. This difference primarily results from the long-term economic focus of the Statement of Net Position versus the current financial resources focus of the governmental funds Balance Sheet, as applied to the reporting of capital assets and deferred outflows of resources, and long-term assets and liabilities, and deferred inflows of resources.

B. Statement of Revenues, Expenditures, and Changes in Fund Balances vs. Statement of Activities

Differences between the Statement of Revenues, Expenditures, and Changes in Fund Balances and the Statement of Activities fall into any of four broad categories.

Long-Term Revenue and Expense Differences

Long-term revenue differences arise because governmental funds report revenues only when they are considered “available,” whereas the Statement of Activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a current financial resources measurement focus and the modified accrual basis, whereas the economic resources measurement focus and the accrual basis of accounting is used on the Statement of Activities, thereby affecting expenses such as compensated absences.

PORT JEFFERSON UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

Capital Related Differences

Capital related differences include the difference between proceeds from the sale of capital assets reported on fund statements and the gain or loss on the sale of assets as reported on the Statement of Activities, and the difference between recording an expenditure for the acquisition of capital items in the fund statements and depreciation expense on those items as recorded in the Statement of Activities.

Long-Term Debt Transaction Differences

Long-term debt transaction differences occur because the issuance of long-term debt provides current financial resources to governmental funds, but is recorded as a liability in the Statement of Net Position. In addition, both interest and principal payments are recorded as expenditures in the fund statements when due and payable, whereas interest expense is recorded in the Statement of Activities as it accrues, and principal payments are recorded as a reduction of liabilities in the Statement of Net Position.

Pension and Other Postemployment Benefits Differences

Pension differences occur as a result of recognizing pension costs using the current financial resources measurement focus and the modified accrual basis of accounting, whereby an expenditure is recognized based on the contractually required contribution as calculated by the plan, versus the economic resources measurement focus and the accrual basis of accounting, whereby an expense is recognized related to the District's proportionate share of the collective pension expense of the plan.

OPEB differences occur as a result of recognizing OPEB costs using the current financial resources measurement focus and the modified accrual basis of accounting, whereby an expenditure is recognized for health insurance premiums and OPEB costs as they mature (come due for payment), versus the economic resources measurement focus and the accrual basis of accounting, whereby an expense is recognized related to the future cost of benefits in retirement over the term of employment.

4. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgets

The District's administration prepares a proposed budget for approval by the Board for the general fund, the only fund with a legally adopted budget.

The voters of the District approved the proposed appropriation budget for the general fund.

Appropriations are established by the adoption of the budget, are recorded at the program line item level, and constitute a limitation on expenditures (and encumbrances) that may be incurred. Appropriations authorized for the year may be increased by the amount of encumbrances carried forward from the prior year. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Appropriations authorized for the current year can be funded by the planned use of specific reserves, and can be increased by budget amendments approved by the Board as a result of selected new revenue sources not included in the original budget (when permitted by law) and appropriation of fund balances. These supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted. No supplemental appropriations occurred during the year.

Budgets are adopted annually on a basis consistent with GAAP.

Budgets are established and used for individual capital projects based on authorized funding. The maximum project amount authorized is based upon the estimated cost of the project. These budgets do not lapse and are carried over to subsequent fiscal years until the completion of the projects.

NOTES TO FINANCIAL STATEMENTS
(Continued)

B. Encumbrances

Encumbrance accounting is used for budget control and monitoring purposes and is reported as a part of the governmental funds. Under this method, purchase orders, contracts, and other commitments for the expenditure of monies are recorded to reserve applicable appropriations. Outstanding encumbrances as of year end are presented as part of assigned fund balance, unless classified as restricted, and do not represent expenditures or liabilities. These commitments will be honored in the subsequent period. Related expenditures are recognized at that time, as the liability is incurred or the commitment is paid.

C. Unassigned Fund Balance

The District's general fund unassigned fund balance was in excess of the New York State Real Property Tax Law §1318 limit, which restricts it to an amount not greater than 4% of the District's budget for the upcoming school year. The District has decided to exceed the 4% statutory limit, in part to finance settled New York Child Victim Act (CVA) claims in excess of insurance proceeds.

D. Over Expenditures of Certain Appropriations

Certain general fund appropriations were over expended. These were in the following appropriation categories of the budget: central administration and pupil services. The general fund budget in total was not over expended.

5. DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

The District's investment policies are governed by state statutes and District policy. Resources must be deposited in Federal Deposit Insurance Corporation (FDIC) insured commercial banks or trust companies located within the state. Permissible investments include obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements, and obligations of New York State or its localities. Collateral is required for demand and time deposits, and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its Agencies and obligations of New York State and its municipalities. Investments are stated at fair value.

Custodial credit risk is the risk that in the event of a bank failure, the District may be unable to recover deposits or collateral securities that are in possession of an outside agency. GASB directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance and the deposits are as follows:

- A. Uncollateralized,
- B. Collateralized by securities held by the pledging financial institution, or
- C. Collateralized by securities held by the pledging financial institution's trust department or agent but not in the District's name.

The District's aggregate bank balances were covered by FDIC insurance or fully collateralized by an irrevocable letter of credit and securities pledged on the District's behalf at year end.

The District did not have any investments at year end or during the year, except as discussed in the note below. Consequently, the District was not exposed to any material interest rate risk or foreign currency risk.

Investment Pool:

The District participates in the New York Liquid Asset Fund (NYLAF), a multi-municipal cooperative investment pool agreement pursuant to GML Article 3-A and 5-G, whereby it holds a portion of the investments in cooperation with other participants. NYLAF is rated AAAM by S&P Global Ratings. The investments are

PORT JEFFERSON UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

highly liquid and are considered to be cash equivalents. All NYLAF investment and collateral policies are in accordance with GML §10 and 11.

The District's investments in NYLAF consisted of repurchase agreements, U.S. Treasury Securities, and collateralized bank deposits, with various interest rates and due dates. These investments are included in cash of the general fund with a carrying amount of \$23,186,969.

NYLAF reports investments at amortized cost, consistent with GASB standards. Amortized costs involves valuing a security at its original date of purchase, and, thereafter, amortizing any premium or accreting any discount on a straight-line basis to maturity. The lead agent of NYLAF is the Red Hook Central School District. Additional information concerning NYLAF, including the annual report, can be found on its website at www.nylaf.org.

6. PARTICIPATION IN BOCES

During the year ended June 30, 2024, the District was billed \$2,259,986 for BOCES administrative and program costs. The District's share of BOCES aid amounted to \$284,493. Financial statements for the BOCES are available from the BOCES administrative offices at 201 Sunrise Highway, Patchogue, New York 11772.

7. DUE FROM STATE AND FEDERAL

Due from state and federal at June 30, 2024, consisted of:

| | |
|---|------------|
| General Fund | |
| New York State - general aid | \$ 32,761 |
| New York State - excess cost aid | 89,890 |
| BOCES aid | 284,493 |
| | 407,144 |
| Special Aid Fund | |
| Federal and state grants | 505,797 |
| School Food Service Fund | |
| Federal & state food service program reimbursements | 19,047 |
| | \$ 931,988 |

District management expects these amounts to be fully collectible.

8. INTERFUND TRANSACTIONS

Interfund balances and activities at June 30, 2024, were as follows:

| | Interfund | | | |
|--------------------------|--------------|--------------|--------------|---------------|
| | Receivable | Payable | Transfers In | Transfers Out |
| General Fund | \$ 3,096,410 | \$ 6,179,214 | \$ 1,095,448 | \$ 1,429,615 |
| Special Aid Fund | | 672,387 | 29,615 | |
| School Food Service Fund | 27,901 | | 30,000 | |
| Capital Projects Fund | 3,726,982 | | 1,370,000 | 1,095,448 |
| Scholarships fund | 308 | | | |
| | \$ 6,851,601 | \$ 6,851,601 | \$ 2,525,063 | \$ 2,525,063 |

PORT JEFFERSON UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

The District typically transfers from the general fund to the school food service fund, special aid fund and the capital projects fund in accordance with the general fund budget and voter approvals. The transfer to the special aid fund was for the District's share of the costs the summer program for students with disabilities. The transfer to the school food service fund was to provide support to the program per the approved budget. The transfer to the capital projects fund was to provide funding for capital improvement projects.

9. LEASE RECEIVABLE

The District entered into an agreement to lease a building at Spring Street to Eastern Suffolk BOCES. Under the agreement, the District receives 12 equal monthly installments in each fiscal year covered by the agreement (July to June). As of June 30, 2024, the present value of the lease receivable was \$903,152 and the corresponding deferred inflows of resources, measured using an implicit interest rate of 3.00%, was \$707,534.

10. CAPITAL ASSETS

A. Changes

Capital assets balances and activity for the year ended June 30, 2024, were as follows:

| | Balance June 30, 2023 | Additions | Reductions | Balance June 30, 2024 |

Depreciation expense was charged to governmental functions as follows:

| | |
|----------------------------|---------------------|
| General support | \$ 34,497 |
| Instruction | 1,573,233 |
| Food service program | <u>5,470</u> |
| Total depreciation expense | <u>\$ 1,613,200</u> |

B. Impairment Losses

The District evaluates prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. The District's policy is to record an impairment loss in the period when the District determines that the carrying amount of the asset will not be recoverable. At June 30, 2024, the District has not recorded any such impairment losses.

11. LONG-TERM LIABILITIES

A. Changes

Long-term liability balances and activity, excluding pension liabilities, for the year are summarized below:

| | Balance June 30, 2023 | Additions | Reductions | Balance June 30, 2024 | Amounts Due Within One Year |
|------------------------------|--------------------------|---------------------|-----------------------|--------------------------|-----------------------------------|
| Long-term debt: | | | | | |
| Energy performance contract | \$ 1,556,745 | \$ | \$ (174,393) | \$ 1,382,352 | \$ 178,955 |
| Other long-term liabilities: | | | | | |
| Compensated absences | 4,241,092 | 254,949 | | 4,496,041 | 100,000 |
| Workers' compensation | 114,670 | 1,083,014 | (1,135,050) | 62,634 | |
| Total OPEB liability | <u>108,205,500</u> | <u>6,458,081</u> | | <u>114,663,581</u> | <u>3,442,902</u> |

The general fund has typically been used to liquidate other long-term liabilities.

Additions and reductions to compensated absences are shown net since it is impractical to separately determine these amounts. The maturity of compensated absences is not determinable.

For total OPEB liability, see subsequent section titled "Postemployment Healthcare Benefits" for additional information.

B. Energy Performance Contract

The energy performance contract is comprised of the following:

| Description | Issue Date | Final Maturity | Interest Rate | Outstanding at June 30, 2024 |
|----------------------------|---------------|-------------------|------------------|---------------------------------|
| Energy efficiency upgrades | 12/15/2016 | 12/15/2031 | 2.599% | <u>\$ 1,382,352</u> |

12. PENSION PLANS – NEW YORK STATE

A. General Information

The District participates in the New York State Teachers' Retirement System (TRS) and the New York State and Local Employees' Retirement System (ERS). These are cost-sharing multiple employer, defined benefit, public employee retirement systems. The systems provide retirement, disability, withdrawal, and death benefits to plan members and beneficiaries related to years of service and final average salary.

B. Provisions and Administration

Teachers' Retirement System

The TRS is administered by the New York State Teachers' Retirement Board. The TRS provides benefits to plan members and beneficiaries as authorized by the Education Law and the New York State Retirement and Social Security Law of the State of New York (NYSRSSL). The system is governed by a 10 member board of trustees. Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors, and administrators employed in New York Public Schools and BOCES who elected to participate in the TRS. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. Additional information regarding the TRS may be found by referring to the NYSTRS Comprehensive Annual Financial report which can be found on the TRS website at www.nystrs.org or obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, NY 12211-2395.

NOTES TO FINANCIAL STATEMENTS

Employees' Retirement System

Obligations of employers and employees to contribute and benefits to employees are governed by the NYSRSSL. The net position of the ERS is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the ERS. As set forth in the NYSRSSL, the Comptroller of the State of New York (Comptroller) serves as the trustee of the Fund and is the administrative head of the ERS. Once a public employer elects to participate in the ERS, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The ERS is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided may be found at www.osc.state.ny.us/retire/publications/index.php or obtained by writing to the New York State and Local Employees' Retirement System, 110 State Street, Albany, NY 12244.

C. Funding Policies

Plan members who joined the systems before July 27, 1976, are not required to make contributions. Those joining on or after July 27, 1976, and before January 1, 2010, with less than ten years of credited services are required to contribute 3% of their salary. Those joining on or after January 1, 2010 and before April 1, 2012, are required to contribute 3% of their salary to ERS or 3.5% of their salary to TRS throughout active membership. Those joining on or after April 1, 2012, are required to contribute between 3% and 6% dependent on their salary throughout active membership. Employers are required to contribute at an actuarially determined rate based on covered salaries paid. For the TRS, the employers' contribution rate is established annually by the New York State Teachers' Retirement Board for the TRS' fiscal year ended June 30th, and employer and employee contributions are deducted from state aid in the subsequent months of September, October, and November, with the balance to be paid by the District, if necessary. For the ERS, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions for the ERS' fiscal year ended March 31st, and employer contributions are either paid by the prior December 15th less a 1% discount or by the prior February 1st. The District paid 100% of the required contributions as billed by the TRS and ERS for the current year. The District's contribution rate was 10.29% of covered payroll for the TRS' fiscal year ended June 30, 2023. The District's average contribution rate was 12.80% of covered payroll for the ERS' fiscal year ended March 31, 2024.

The District's share of the required contributions, based on covered payroll for the District's year ended June 30, 2024 was \$1,816,325 for TRS at the contribution rate of 9.76% and \$470,476 for ERS at an average contribution rate of 13.27%.

D. Pension Asset/(Liability), Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2024, the District reported the following asset/(liability) for its proportionate share of the net pension asset/(liability) for each of the systems. The net pension asset/(liability) was measured as of June 30, 2023, for TRS and March 31, 2024 for ERS. The total pension liability used to calculate the net pension asset/(liability) was determined by an actuarial valuation. The District's proportion of the net pension asset/(liability) was based on a projection of the District's long-term share of contributions to the systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the TRS and the ERS in reports provided to the District.

Actuarial Assumptions

The total pension liability as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the following actuarial assumptions:

| | TRS | ERS |
|--|---------------|----------------|
| Measurement date | June 30, 2023 | March 31, 2024 |
| Actuarial valuation date | June 30, 2022 | April 1, 2023 |
| Inflation | 2.40% | 2.90% |
| Salary increases | 1.95-5.18% | 4.40% |
| Investment rate of return (net of investment expense, including inflation) | 6.95% | 5.90% |
| Cost of living adjustments | 1.30% | 1.50% |

For TRS, annuitant and active mortality rates are based on plan member experience, with adjustments for mortality improvements based on Society of Actuaries Scale MP-2021 for June 30, 2023 and June 30, 2022, applied on a generational basis. For ERS, annuitant mortality rates are based on April 1, 2015 – March 31, 2020 system experience with adjustments for mortality improvements based on Society of Actuaries Scale MP-2021. The previous actuarial valuation as of April 1, 2020 used the same assumptions for the measurement of total pension liability.

For TRS, assumptions were computed by the TRS’ Office of the Actuary and adopted by the TRS’ Retirement Board in October 2021. The assumptions are based upon recent TRS member experience. Detailed assumption information may be found in the TRS’ annual Actuarial Valuation Report. For ERS, the actuarial assumptions were based on the results of an actuarial experience study for the period April 1, 2015 – March 31, 2020.

For TRS, the long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, *Selection of Economic Assumptions for Measuring Pension Obligations* and generally accepted accounting principles. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of pension plan investment expense and inflation) for each major asset class, as well as historical investment data and plan performance.

For ERS, the long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected return, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Discount Rate

The discount rate used to measure the total pension liability was 6.95% for TRS and 5.90% for ERS. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based upon the assumptions, the systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Asset/(Liability) to the Discount Rate Assumption

The following presents the District's proportionate share of the net pension asset/(liability) calculated using the discount rate of 6.95% for TRS and 5.90% for ERS, as well as what the District's proportionate share of the net pension asset/(liability) would be if it were calculated using a discount rate that is 1 percentage point lower (5.95% for TRS and 4.90% for ERS) or 1 percentage point higher (7.95% for TRS and 6.90% for ERS) than the current rate:

Payables to the Pension Plan

For TRS, employer and employee contributions for the fiscal year ended June 30, 2024, are paid to the system in September, October, and November 2024 through a state aid intercept, with a balance to be paid by the District, if necessary. Accrued retirement contributions as of June 30, 2024, represent employer and employee contributions for the fiscal year ended June 30, 2024, based on paid TRS covered wages multiplied by the employer's contribution rate and employee contributions for the fiscal year as reported to the TRS. Accrued retirement contributions as of June 30, 2024 amounted to \$1,816,325 of employer contributions and \$143,508 of employee contributions.

For ERS, employer contributions are paid annually based on the system's fiscal year, which ends on March 31st. Accrued retirement contributions as of June 30, 2024, represent the projected employer contribution for the period of April 1, 2024 through June 30, 2024 based on paid ERS covered wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2024 amounted to \$131,402 of employer contributions. Employee contributions are remitted monthly.

13. PENSION PLANS - OTHER

A. Tax Sheltered Annuities

The District has adopted a 403(b) plan covering all eligible employees. Employees may defer up to 100% of their compensation subject to Internal Revenue Code elective deferral limitations. The District may also make non-elective contributions of certain compensated absence payments based on collectively bargained agreements. Contributions made by employees for the year ended June 30, 2024, totaled \$1,167,892.

B. Deferred Compensation Plan

The District has established a deferred compensation plan in accordance with Internal Revenue Code §457 for all employees. The District makes no contributions into this Plan. The amount deferred by eligible employees for the year ended June 30, 2024 totaled \$203,433, which includes Roth contributions of \$3,350.

14. POSTEMPLOYMENT HEALTHCARE BENEFITS

A. General Information about the OPEB Plan

Plan Description –The District provides OPEB for eligible retired employees of the District. The benefits provided to employees upon retirement are based on provisions in the various contracts that the District has in place with different classifications of employees. The plan is a single-employer defined benefit OPEB plan administered through the New York State Health Insurance Program – Empire Plan. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Benefits Provided – The District provides healthcare benefits and Medicare Part B coverage for eligible retirees. The benefit terms are dependent on which contract each employee falls under. The specifics of each contract are on file at the District offices and are available upon request.

Employees Covered by Benefit Terms – At June 30, 2022, the following employees were covered by the benefit terms:

| | |
|--|-----|
| Inactive employees or beneficiaries currently receiving benefits | 244 |
| Inactive employees entitled to but not yet receiving benefits | - |
| Active employees | 221 |
| | 465 |

B. Total OPEB Liability

The District’s total OPEB liability of \$114,663,581 was measured as of June 30, 2024, and was determined by an actuarial valuation as of June 30, 2022. Update procedures were used to roll forward the total OPEB liability to the measurement date.

Actuarial Assumptions and Other Inputs – The total OPEB liability, as of the measurement date, was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

| | |
|--|--|
| Inflation | 2.70% |
| Salary increases | various varies by pension retirement system membership |
| Discount rate | 4.21% |
| Healthcare cost trend rates | 6.25% decreasing to an ultimate rate of 4.14% by 2076 |
| Retirees' share of benefit-related costs | 16-18% of projected health insurance premiums for retirees |

The discount rate was based on the Bond Buyers General Obligation 20 Year Municipal Bond Index.

Mortality rates were based on the Pub-2010 Headcount-Weighted table (Teachers for TRS group and General Employees for ERS group) projected fully generationally using MP-2021.

C. Changes in the Total OPEB Liability

15. RISK MANAGEMENT

A. General Information

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; errors and omissions; and natural disasters. These risks are covered by a combination of self-insurance reserves and commercial insurance purchased from independent third parties. There have been no significant reductions in insurance coverage as compared to the prior year, and settled claims from these risks have not exceeded available reserves and commercial insurance coverage for the past three years.

B. Risk Retention

The District has established a self-insured plan for risks associated with workers' compensation claims. Liabilities of the plan are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for reported and unreported claims which were incurred on or before year end but not reported (IBNR). Claims activity is summarized below:

| | 2023 | 2024 |
|---|-------------|-------------|
| Unpaid claims at beginning of year | \$ 357,912 | \$ 114,670 |
| Incurred claims and claim adjustment expenses | 810,528 | 1,083,014 |
| Claim payments | (1,053,770) | (1,135,050) |
| Unpaid claims at year end | \$ 114,670 | \$ 62,634 |

At June 30, 2024, the District had \$4,373,491 of funds in the workers' compensation reserve.

C. Public Entity Risk Pool

The District participates in New York Schools Insurance Reciprocal (NYSIR), a non-risk-retained public entity risk pool, for its property and liability insurance coverage. The pool is operated for the benefit of individual governmental units located within the pool's geographic area, and is considered a self-sustaining risk pool that will provide coverage for its members. The pool obtains independent coverage for insured events in excess of certain defined limits, and the District has essentially transferred all related risk to the pool.

16. RESTRICTED FUND BALANCE – APPROPRIATED RESERVES

The District expects to appropriate the following amounts from reserves, which are reported in the June 30, 2024 restricted fund balances, to fund the budget and reduce taxes for the year ending June 30, 2025:

| | |
|------------------------------------|------------|
| Workers' compensation | \$ 50,000 |
| Retirement contributions - ERS | 200,000 |
| Employee benefit accrued liability | 100,000 |

19. TAX ABATEMENTS

The Town of Brookhaven Industrial Development Agency, enters into various property tax abatement programs for the purpose of economic development. The District received PILOT payments totaling \$158,281. The amount of the District's property tax reduction was not available.

In addition, the District recognized \$1,718,797 in LIPA PILOT, which is included in other items revenue; however, these payments are not the result of a tax abatement.

20. COMMITMENTS AND CONTINGENCIES

A. Encumbrances

All encumbrances are classified as either restricted or assigned fund balance. At June 30, 2024, the District encumbered the following amounts:

Assigned: Unappropriated Fund Balance:

| | |
|-------------------|-------------------|
| General Fund | |
| General support | \$ 732,705 |
| Instruction | 184,180 |
| Employee benefits | <u>4,364</u> |
| | <u>\$ 921,249</u> |

B. Grants

The District has received grants, which are subject to audit by agencies of the state and federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the District's administration believes disallowances, if any, would be immaterial.

C. Litigation

The District is involved in lawsuits arising from the normal conduct of its affairs. The District has New York Child Victims Act (CVA) claims that may be in excess of insurance proceeds. Any amounts to be disbursed by the District are undeterminable at this time. The District has decided to exceed the 4% statutory limit for the year ended June 30, 2024, to finance these claims.

21. SUBSEQUENT EVENTS

The District has evaluated subsequent events through the date of the auditor's report, which is the date the financial statements were available to be issued. No significant events were identified that would require adjustment of or disclosure in the financial statements.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Education
Port Jefferson Union Free School District:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Port Jefferson Union Free School District (the District), as of and for the year ended June 30, 2024, and the related notes to the basic financial statements which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 8, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, misstatements, on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses or significant deficiencies. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matter that are required to be reported under Government Auditing Standards and which is described in the accompanying schedule of findings and responses as item 2024-001.

The District's Response to the Finding

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to the finding identified in our audit and described in the accompanying schedule of findings and responses. The District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Schedule of Findings and Responses
June 30, 2024

(2024-001) New York State Property Tax Law §1318

Criteria - New York State Real Property Tax Law §1318 limits the amount of unexpended surplus funds a District can retain to no more than 4% of the District's budget of the General Fund for the ensuing year. Nonspendable and restricted fund balance of the General Fund are excluded from the 4% limitation. Amounts assigned for the subsequent year and encumbrances are also excluded from the 4% limitation.

Condition - The District's unrestricted fund balance at June 30, 2024 after excluding amounts assigned for the subsequent year and encumbrances, was in excess of the New York State Real Property Tax Law §1318 limit. For the year ended June 30, 2024, this portion of the District's unrestricted fund balance is \$4,785,659, which is 9.97% of the 2024-25 voter approved General Fund budget.

Cause - Funding of reserves and appropriation of unassigned for the 2024-25 budget was insufficient to be in compliance with NYS Real Property Tax Law §1318.

Effect of Condition - The District is not in compliance with NYS Real Property Tax Law §1318.

Recommendation - We recommend that the District develop a plan to rationally appropriate unassigned fund balance so as to be in compliance with NYS Real Property Tax Law §1318.

View's of Responsible Officials and Planned Corrective Actions - The District administration will develop a fiscally sound plan to reduce its fund balance to be in compliance with Property Tax Law §1318. As part of that plan the District intends to return a portion of the excess fund balance as a funding source to reduce the tax levy when it prepares the budget for future years.
